

RAVF1840

-40°C Laboratory Freezer

This **Labcold** freezer is constructed from enamelled mild steel with an enamel steel interior so is built to last. Ideal for any application which requires the storage of a large quantity of product within tight temperature tolerances. This freezer is manual defrost, putting you completely in control of the temperature of your samples.

Made to order at our UK factory, this freezer is specifically designed to withstand the rigours of professional use, and is backed by a comprehensive one year parts and labour warranty.

Fitted with a digital temperature display, you can be sure with a quick glance that the freezer is operating at the correct temperature. For extra peace of mind this freezer also has an audio/visual minimum and maximum temperature alarm and can have remote alarm contacts fitted at time of manufacture. For extra security this freezer comes complete with a door lock and two keys.

Part Number	RAVF1840
Capacity (Litres)	505
Style	Freestanding
Exterior Dimensions	1702 x 770 x 725mm
Interior Dimensions	1490 x 645 x 545mm
Energy Consumption	4.1 kWh/24h
Weight	86kg
Operating Temperature	-40°C
Interior Construction	White Enamel Steel
Exterior Construction	White Enamel Steel
Fixed Shelves	6
Door Type	Solid
Door Hinging	Right
