

The Labcold 100 litre ULT freezer features VIP technology and is designed to provide a large amount of storage whilst occupying as little laboratory space as possible.

Featuring one energy saving Danfoss compressor this freezer can pull down to -86°C in an impressive 3-4 hours. Due to the accurate microprocessor controller, the set point can be adjusted by one degree increments making the freezer extremely versatile and adaptable.

Fitted with a range of audible and visual alarms, and with a 72 hour controller battery backup, this freezer features all the safety features normally found on a much larger cabinet including password setting protection.

For extra peace of mind, this freezer comes complete with a free 5 year warranty. Two free maintenance visits are included in the warranty making this an extremely cost effective purchase!

Labcold -86°C Ultra Low Temperature 100 litre VIP Freezer

Part Number	LULT0480
