

RLVF14201

Sparkfree Freezer

The **Labcold** Sparkfree range is engineered to store flammable materials safely with no sources of ignition inside the chambers. Anything that could cause a spark is located outside of the chamber.

Warning: Do not store open containers of volatile substances in this freezer.

Designed specifically for laboratory safety with a sparkfree interior and factory fitted with a door lock for optimum security.

This model provides a large storage capacity on a small floor area and comes with a digital temperature display and has manual defrost for greater operator control.

Did you know that 25% of chemical accidents are caused by improper storage?
