

# Advanced Pharmacy Refrigeration

Robustly designed for hospital dispensaries and complete with hygienic stainless steel interiors, the Labcold Advanced Pharmacy Range is available in sizes from 150 litre to 1245 litre internal capacity. All models have the option of a solid or double glazed glass door and are fitted with door locks, high/low and door alarms and temperature displays plus lockable castors for manoeuvrability and ease of cleaning.

Insulated with envirofoam and built to last, these Advanced Pharmacy refrigerators provide precise temperature controlled storage of vaccines and pharmaceuticals.
