

Divided Drawers for IntelliCold® Pharmacy Refrigerators

Intelligently Designed for Safety and Security

An extra option for your Labcold IntelliCold® Pharmacy and Vaccine refrigerator, these drawers fit in any 150, 300 and 430 litre models. They can be purchased singularly to complement the shelves provided with the unit and give you flexible storage options for your temperature sensitive medicines.

Constructed from brushed aluminium with an easy glide mechanism, these drawers are designed to ensure that air circulation inside the refrigerator is not restricted. Fitted with adjustable longitudinal dividers to assist in keeping stock tidy and in date order, these drawers are easy to install anywhere within the fridge as they simply fit on to the existing racking.

Order reference:

PHARMDRAWER01 - Fits models RLDF/G0510

PHARMDRAWER02 - Fits models RLDF/G1010 and RLDF/G1510
